Roland and John,

See not below. Trying to re-engage with you both on proposed treatment for EISA definition of Renewable Biomass. We'll need to do a quick check in with you on the approach, the draft language and what you all feel is minimum level to defend approach.

Thanks, Paul

Hi Harry,

As noted in our previous communications, we are moving quickly to our next steps in coordinating with you and your team with regard to revising our RFS2 package to account for applying modified provisions for the renewable biomass compliance program.

Ex. 5 Deliberative Process (DP)

Please let me know if you have any questions. We'll likely need a quick committee check-in call in the very near future to handle some of this in real time. I'll look to see where things are by mid-week and then look to schedule something after gauging our progress.

Thanks, Paul
